Montgomery Hall Kit

Dollshouses

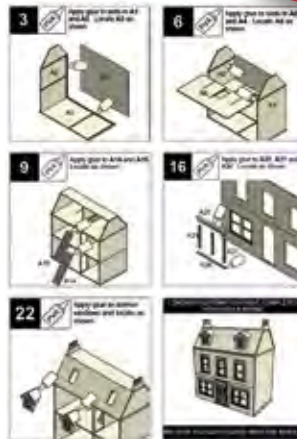

Our selection of Dollshouses come in two construction styles:

1. *The Dolls House Emporium houses*

pages
10 - 19 and 24 - 25

These houses come in a flat pack kit with easy to follow illustrated step-by-step instructions to take you through the build process. No experience is necessary and every care has been taken to make this an easy and enjoyable experience from start to finish to give you years of pleasure.

Constructed out of plain MDF and wood giving you a blank canvas for your inspiration.

All of the components required to complete the build of your dollhouse are included in the kit with the windows and the doors preassembled for you to paint as you wish and just slot into place.

2. *Streets Ahead houses*

pages
20 - 23 and 26 - 27

These houses offer a good value style with simple detail.

The majority of houses are available in a pre-painted flatpacked MDF and wood in kit form with pre-painted and assembled windows and doors. Walls just need screwing together (glue as well if desired). Some houses are offered in a plain MDF for personal finishing. See each house description for details. All houses come with easy to follow instructions.

Basements

Each Dolls House Emporium house has the option of its own individual basement. See each house description for details.

The Streets Ahead range offers some universal basements fitting houses depending on their size. See page 23 for details.

Figures and accessories not included.

Dolls House Emporium houses

The Classical Dolls House

The Classical Dolls' House is a cost-effective way to make a statement and create a stir. Its Georgian town house exterior provides a backdrop to this long-standing favourite design which provides the perfect hobby space for two to enjoy at once. Opening front panels give easy access to six rooms on three floors - and, of course, you don't have to furnish in the Georgian style! Why not turn it into a big city apartment, complete with basement and patio area - or add conservatory or garden. There can't be many styles that haven't been embraced during the Classical's 30-year-reign... so why not join the thousands of families worldwide for whom it holds pride of place!

Grosvenor Hall

The magnificent Grosvenor Hall is often seen as the signature house of The Dolls House Emporium. Proudly standing more than 5ft tall (with its basement), the features and detail give it the wow factor, wherever it is on display. The detail and embellishment makes an important statement to establish this as an heirloom. Whether it is the grand country house of your dreams, or a historical project, the palladian-style property offers eight large rooms with four more in the basement. The double-door entrance leads to a curved staircase and the internal doors are enhanced by luxury carved pediments.

Wentworth Court

Nothing more perfectly encapsulates the traditional Victorian children's dolls' house than the stylish Wentworth Court. Featuring six rooms split over three floors, it evokes the magic of childhood in a bygone era when dolls' houses were at the very height of their popularity. Wentworth Court has been featured in numerous magazines, lending its distinctive Georgian elegance and style to a range of features and articles. Italian architect Andreas Palladio, from whom the term Palladian emanates, is famous for grand proportions, characterised by iconic columns and sophisticated stonework as seen on Wentworth Court. Basement detailing include railings and a window, should you wish to enhance the building with three further rooms.

Montgomery Hall

Montgomery Hall is a firm favourite of professional stylists and home-based hobbyists alike! Its Georgian styling helps set the imagination racing - the hipped roof and classical columns, triple framed windows and a scrolled portico giving all the ingredients for a stately statement of grandeur. We were happy to loan Montgomery Hall and its basement, which together stand almost 4ft tall, to BBC TV's Upstairs Downstairs, where it featured in the nursery at Eaton Place. Montgomery Hall was already part of the Darwin children's nursery in the film 'Creation' and was in a Coutts and Co bank Christmas window display in the heart of London. Will yours become the home of a Lord and Lady, or somewhere for chic, modern city living?

Malibu Beach House

Bringing a little sunshine to dolls' house collectors around the globe, the exotic Malibu Beach House is a firm favourite with collectors and professional stylists alike. For lovers of modern living, its Art Deco lines make it particularly pleasing to the eye and it is easily turned into a wonderful home with six rooms across three floors. It can easily be adapted for non-residential purposes; examples include an art gallery, department store or a Miami Beach Hotel! The addition of the roof-top sun lounge means you can have your very own spa with Jacuzzi - what bliss!

Lake View

Lake View is proving to be an amazingly popular build. From its launch back in 2007 and through its makeover in 2012, it's always been on Christmas lists for customers young and old. It's a modern design with a modern interior, offering five open plan rooms with an optional basement for sophisticated miniature living! 21st Century rooms offer space for a home spa, open living, holiday lets and more. The loft could be an office, playroom or entertainment centre. This beautiful modern design could be your very own barn conversion, or a holiday getaway at the side of a lake or harbour... It's a light-filled house with endless possibilities - where the only limit is your own imagination!

Pretty and petite Springwood Cottage is a charming country retreat that can double as a suburban home. The six-room property is a firm favourite among beginners on their first step on the miniature property ladder as well as for seasoned collectors. With two dormer windows, a bay and a storm porch forming part of the attractive architectural detailing, this is a quality smaller build offering a simple construction.

Stratford Bakery

Stratford Bakery is the classic Tudor dolls' house which has been a best-seller and firm favourite from the day it was launched. Popular among mini house-builders as a cafe, curiosity shop or medieval bakery, it features a characteristic overhanging room to create a covered courtyard area below. Genuine Tudor-style merchant's premises features have been reduced to 1:12th scale, including the external steps to access the first floor rooms. Decorative half timbers and leaded acetate windows add to the period atmosphere... but will you make this house a modern office block in the City of York or travel back in time to the Tudor streets of "olde England"?

Mountfield

This traditional, detached house is one which everyone recognises, you may even have lived in one yourself! Mountfield is available in kit form, if you want to design your own decor inside and out. We have sacrificed nothing to maintain authenticity - there's even access to the store under the stairs! The four opening panels give an air of secrecy and add interest - will your house be conventional or contemporary?

Order your Mountfield today and choose a lighting set too! Lighting adds warmth, sparkle and really sets off your dolls' house. You can add to this lovely dolls' house with a garden or conservatory to give yourself more miniature room to play with.

Amber House

Amber House is still one of our most flexible and quick-build solutions to your miniature challenge! It's the ideal starter for the young collector or beginner - and with six rooms on three floors you can select furniture and accessories to suit your mood. Miniaturists have turned Amber House into modern or period properties with interiors to match. You could follow the romanticism of the Bronte Parsonage, make it bright and funky, or set your creativity free on a personal interior design scheme. Select furniture and accessories to suit your scheme.

If there was ever proof there are dolls' houses for men as well as for ladies, then Cumberland Castle is it. Suitable for beginners as well as advanced builders, this evocative house can be turned into anything from a medieval haunt to a modern-day luxury hotel. Features include castellated walls, interior detailing and authentic architecture. Historic manor or country retreat? The styling choice is yours! Five rooms over three floors, plus two roof terraces make this a versatile addition to your collection. Don't forget the tower room at the top - what secrets could it hide?

Magpies

Magpies and Jenny Wren's offer a superb chance to open up a mini retail outlet as part of your collection, either together or as separate builds. Past projects have included a Dickensian public house, a general store and a wonderful seaside cafe. Both buildings are perennial favourites with dolls' house fans. Magpies is a distinctive triple-floor shop, with flexible space above for offices, storage or living accommodation. The versatile interior can offer six generous-sized rooms or an open plan ground floor area. The matching two-room Jenny Wren's next door could be used as a standalone beginners' or specialist project.

Garden

And now for your garden selection...

There are plenty of directions in which to take your dollhouse garden. Gazebos and benches can create a social space for your dolls, perhaps with some patio furniture. Planters, arches and hanging baskets can make the perfect environment to cultivate beautiful flora - choose from exotic or domestic plants, or a mix of both.

Alternatively, use wheelbarrows and other tools to build your living larder or add some pets and toys for the children to have an outside play area. You might wish to add a basement to have somewhere to store those muddy bikes and wellies!

Porcelain Dolls

How to furnish...

Things you need to consider:

- Period - Georgian, Victorian, Edwardian or Modern
- Which rooms you want to have in your dollshouse
- Do you need servants quarters, if you do you may want to add a basement or attic space
- Wallpaper, floor cards, wood flooring, rugs and carpet
- Dolls and animals to add character to your dollshouse

We have identified 9 key rooms detailed below. All the items you need to furnish your rooms are clearly laid out to help you pick the items you need. Furniture and accessories. Don't forget also to add a few dolls to populate your house and turn it into a dollshouse home!

To help you decide which period to base your house on here is a quick overview of the Georgian, Victorian, Edwardian and Modern eras.

Georgian period: 1714 – 1830

The Georgian period covers the reigns of the first four Hanoverian Kings :- George I, George II, George III and George IV. The Georgian era is well known for its elaborate architecture, a great example of this is the Crescent in Bath. Porticos, sash and dormer windows are also characteristic of this period. Home décor in these years was sparse, many things that we now take for granted were yet to be mass produced (this comes with the industrial revolution and Victorian factories). Fashion, leisure time and grand houses were the preserve of the elite in society. If you choose to decorate your dollshouse in the Georgian era it is best to go for the grand style.

Victorian period: 1837 – 1901

The Victorian era of British history covers the period of Queen Victoria's reign which lasted from 20th June 1837 until her death on 22nd January 1901. In total she was on the throne for 63 years and 7 months. The Victorian era is well known for scientific invention and fashion. The Great Exhibition of 1851 showcased the greatest innovations and fashions of the century from all around the world.

Home décor in the Victorian era started simple and as the years went by during Victoria's reign the fashions became more elaborate with heavy drapes, dark carpets and dark patterned wallpapers. Homes had many ornaments and assorted ceramic collectables.

Edwardian period: 1901 – 1910/14

The Edwardian era is the period covering the reign of King Edward VII 1901 – 1910 it is commonly also extended to include the years preceding the commencement of the First World War. In contrast from Victoria who had withdrawn from society in 1861 following the death of her husband Prince Albert, King Edward embraced the society and fashions of Continental Europe. The fashions in home décor changed dramatically from the preceding Victorian era, a new movement, Art Nouveau was embraced. Furniture, carpets and curtains were made of lighter material and colours, natural light was an important part of designing the layout of a room.

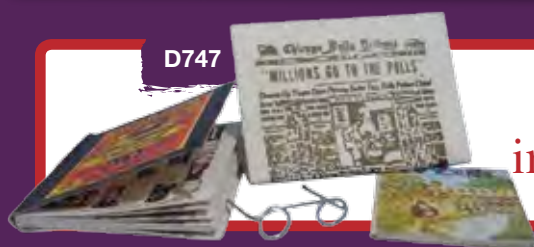

Modern Era: 1945 – present

The modern era is anything post Second World War. There have been many exciting changes in the years after the war. In regard to home décor we have passed through the austere 1950's to the swinging sixties followed by the 70's and the technology obsessed 1980s (think of the innovations in cooking with the microwave). We then pass to the 1990's a decade of cheap consumer good and computers to the millennium and beyond. The era is hard to characterise because of the huge changes in the past 60 plus years. If you choose the Modern era as your dollshouse design inspiration you have a lot of exciting decorative choices to make. You can let your imagination run wild!!

Remember that you can choose an era for the whole of your dollshouse or you can mix and match periods in different rooms, for example have a Modern kitchen, Victorian bathroom, a Georgian front door and an Edwardian sitting room. You can accessorise, furnish and populate with dolls from different eras.

The choice for decoration is all yours.

New for this year's catalogue we have introduced an index! See pages 306 - 307

Shelving

Our shelving selection includes display cabinets, dressers, sideboards, wall shelves and more, so you can furnish your dollhouse whichever way you choose, whatever the style. Furniture can be matched to create a pine collection, for instance, or mixed between wooden and painted pieces. To keep your accessories in order and on display, pick the right shelving for the room.

Bookcases for the study or living room, filled with books, ornaments and photo frames. A dresser in the kitchen for your groceries and utensils.

Wall shelves are the best option for the bedroom and can hold simple decorative pieces or be packed full with personal effects, whatever you prefer. A display cabinet in the dining room can beautifully show off the best china and silverware.

Use display cabinets to show off your ornaments.

Christmas

Arguably the largest celebration of the year, we have a range of Christmas accessories, papers, dolls and electrics for you to choose from. Perhaps you want to festively hang your stockings in December or keep your decorations up every day. What could be cosier than a wreath on your door, yule log on the table and Father Christmas asleep in his chair?

Christmas

“Festive fun for all the family!”

Your Christmas tree can arrive decorated or you can decide on a plain one and decorate it yourself from our range of tinsel, baubles and fairy lights. Don't forget the star on top!

If you choose to have snow in the garden, why not add a friendly snowman?

Includes 8 trees

Dining in Style

Most families keep one set of crockery for everyday use, and another for best - perhaps you might want to keep one range in a display cabinet and another laid out on the table. Consider the theme of your dining room - including colour scheme and time period - when choosing your dining table and chairs, cutlery and tableware, tablecloth and everything else.

A Georgian or Victorian dining room may include serving staff.

A more modern room could have more than one purpose - perhaps some board games for after dinner entertainment. Don't forget the drinks cabinet to keep the party atmosphere alive!

Create the dining room of your dreams!

The Nursery

Catalogue © Streets Ahead 2021

Your nursery could be home to one child or several. Consider their ages when furnishing - prams and highchairs are better suited to younger children, but there is a range of toys for any age and period in history. You may wish to choose blues for boys and pinks for girls, or a more neutral overall colour scheme.

Perhaps incorporate some school elements and a governess for older children. Maybe have a toy shop - you could stock everything from bikes to board games to building blocks!

BD35 Solid Water 90ml BD36 Solid Water 350ml

A low odour, 2 part resin for simulating crystal clear water for miniature bowls, garden ponds and puddles. Creates the illusion of deep water with minimal thickness. Use it for still water (canals or lakes) in railway layouts. Surface can be textured to create moving water effects with **Making Waves BD39**. Available in 90ml and the larger economy 350ml size for larger dioramas (coverage 1-2 metres 10cm wide up to 2/3mm deep).

Photo courtesy of Catherine Davies

BD64 Aqua Magic 250ml BD65 Aqua Magic 125ml

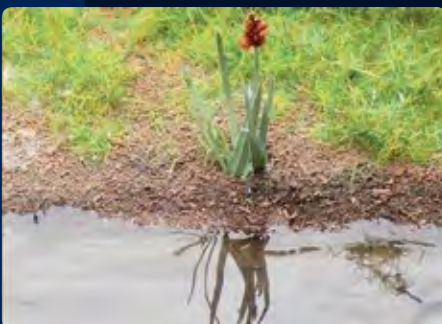

For modelling realistic water.

No mixing, safe & low odour-light stable.

Aqua Magic is a 1-part solution to the scale modelling of water effects such as rivers, canals, lakes, ponds, puddles & mud.

BD43 Scenic Water

Remelttable resin for simulating liquids, jellies, bathwater, sinks etc. 125ml.

Scenic Products

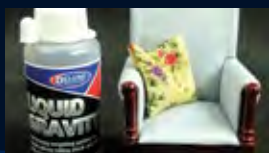

BD39 Making Waves

For creating running water tap drips, waterfalls and moving water effects in the garden. Making Waves is a one part, clear setting, water based low odour resin that holds its shape, even on vertical surfaces. It can be used for a variety of water applications: drips and running water on taps, waves and ripples on water surfaces (eg Solid Water) and even waterfalls in the garden. Can be coloured with water based paints. 100ml pack.

BD38 Liquid Gravity

Liquid Gravity is a brand new non-toxic weighting system for models. This is specially designed to pour into and fill small cavities and set in place with an applied adhesive.

BD68

Eze Epoxy Putty

For rapid customizing of plastic, resin, wood & metal models.

This 2-part, fast curing, epoxy putty will not shrink or crack and is premeasured and packed for accurate mixing of the two parts. It sets in 10-15 minutes to a tough, lightweight plastic and unlike many other putties it is easy to sand, carve and paint once set

Accurate and easy mixing
Long life with re-sealable foil bag
Easily rolled to thin films
Holds its shape

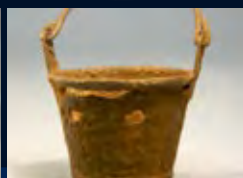

BD29 Scenic Snow Kit

Kit for the creation of dramatic snow scenes in minutes. Covers 0.5 sqm.

BD27 Scenic Rust

Kit of materials to create real rust on all paintable materials: wood, plastic, metal, etc. thereby creating more realism.

BD60 Create and Shape

A lightweight, scenic modelling material for the creation and casting of realistic diorama groundwork. 240ml.

Scenic Products

BD44 Perfect Plastic Putty
Creates invisible seams. One part, fast drying, superfine filler. Good adhesion and sanding properties on plastic. Water clean up. 40ml.

BD33 Icy Sparkles
Creates frozen snow effects, 25g.

BD15 Micro Balloons
Lightweight "free flowing" white powder which is mixed with polyester or epoxy resin to make an easy sanding strong filler. 250ml.

BD63 Smart Plastic
Creates invisible seams. Smart Plastic is a safe, white modelling plastic that is easily melted in hot water (40-60C) to a soft consistency, ideal for hand moulding to any shape. Sets in 3 - 4 minutes to a tough, flexible plastic that can be re-melted. 200ml.

BD28 Scenic Fibres
Scenic Fibres work with **Making Waves** to allow the easy and faster modelling of more realistic moving and white water eg. waterfalls. 0.5 metre pack.

Perfect Plastic Putty with the help of Microballoons & Icy Sparkles are perfect for making piped icing, buttercream and meringues for a dolls house. You can also colour it and add texturing agents for different effects. In this short piece I have used **Perfect Plastic Putty** to make: icing on a peach rose gateau, buttercream on a carrot cake, multi-coloured buttercream on cupcakes, meringues on a raspberry pavlova.

WATCH THE VIDEO

1 Fill a Pin Point syringe from Deluxe Materials; this allows fine application of the putty.

2 The putty is quite soft when fresh, flowing freely when piping through a syringe for the icing. Remember it will spread slightly, so allow a little extra space.

3 Adding colour to **Perfect Plastic Putty** is easy by adding pastel chalk scrapings until you get your colour.

4 **Cake cream:** Apply **Perfect Plastic Putty** using a finger, spreading over a carrot cake base. Use **Speedbond PVA** if extra adhesion is required.

5 **Meringue nests:** Swirl the meringue mixture (slightly coloured mix of **Perfect Plastic Putty**, **Microballoons** and **Icy Sparkles**) around in a circle on non stick baking paper, forming a well as it dries.

6 Before fully hard, break it up into large pieces and stick together with the pure putty to mimic the natural cracking that occurs with meringue and give the impression of fluffy white meringue spilling out from inside a golden crust.

7 Fill any fine cracks in the meringue with the putty / syringe and choice of filling eg. "cream" made from coloured Deluxe Materials **Making Waves** & topped with raspberries. Finish with acrylic matt varnish.

Fairy Doors!

The belief in Fairies is common in many parts of the world. The term Fairy is commonly believed to be European specifically French word Faeire. The word derives from the Latin Fata meaning The Fates. The Fates refers to the belief in three European Mythological Goddesses. For hundreds of years people have traditionally left offerings of bread and milk in the woods when they believed Fairies were living.

Despite the eventual transition from a Pagan to Christian society in Europe the belief in Fairies lives on. One manifestation of this is the creation of Fairy Doors and Fairy Gardens. Some of these installations are for fun and some are an expression of a sincere belief that we live side by side with Fairies. Recently Fairy Doors have moved into more urban settings, in homes and also shop doorways.

Fairy doors encourage children of all ages to use their imagination and curiosity. Your child might wish to leave gifts for the fae folk such as coins, sweets or flowers. You might even wish to decorate your door with miniature gnomes, elves or fairies. Ready painted doors are available in many colours, or perhaps you'd rather an unpainted door to colour yourself or leave natural. There are endless ways to decorate your fairy door - lichen, snow, shells, tinsel, wreaths and much much more. Why not create a little path leading up to it?

*Are you making
a fairy tree door?
Use one of our
ladders to reach it.*

Doors can be attached to the skirting board or mantelpiece (because fairies can fly!) or in the garden to allow fairies safe passage into your home. Perhaps your child can keep a key for their door, so they can visit their fairy friend whenever they wish! You can personalise your door as much as you like using your choice of handle, knocker and letterbox - our crystal doorknobs look especially magical and come with their own keys!

Perhaps your fairy door has direct access to the tooth fairy, so your child can leave their tooth outside it for collection.

Wallpapering Your Dollhouse

The right wallpaper can really make your dollhouse - using colours and patterns from the appropriate time period will help create an authentic space.

Perhaps your whole dollhouse is set in one era in which case you may wish to use a variety of colours in a similar design for a sense of cohesion. Or you may prefer some changes in your rooms, mixing and matching styles. Specific papers can also be used for floors or ceilings and some are designed to create a special visual effect, the choice is yours!

Many Victorian wallpapers were ostentatious and opulent with rich designs and often 3d effects. The colour scheme was very vibrant, reds, blues, yellows and purples.

Edwardian styles are more relaxed than over the top Victorian styles. The colour schemes are more pale blues and yellows.

If you decide to decorate all of your dollhouse or just some rooms in a Modern style you may wish to include a feature wall where you wall paper only one wall, this is a popular option for a bedroom or living room.

Stove Tiles

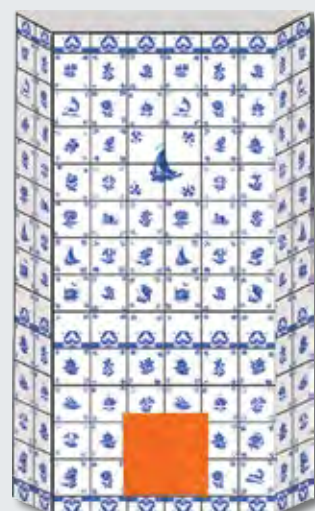

In a corner or in the middle of the room, our relief tile for stoves provide an unusual touch to your dollhouse. We also provide a gold piece with which you can decorate the stove opening. It comes in a kit containing instructions for a very easy assembly. The kit offers two positions, one as fully illustrated on this page, and the other in the shape of a triangle, to make a corner stove.

Electrics Welcome to a brighter home

Using real lights to illuminate your dollshouse can be a magical experience. You need to decide between electric lights on the 12 volt system using a transformer or LED lights using 3 volt batteries.

The 12 volt system:

You have a choice between wiring your house by using a sort of "extension" multisocket system in each room or all wires leading to a block at the back of the house, see page 267.

There is also a flat wire copper tape system hiding the wire behind wallpaper or at the back of the house, see page 268.

Once you have purchased a transformer the 12 volt lights work out to be more economical, so for the larger projects people favour the 12 volt system.

The LED 3 volt battery system:

Increasing in popularity, dollshouse LED lighting is an exciting development making illuminating your house much easier, no longer needing a transformer and trailing wires. Therefore the light can be placed wherever you like, inside or on the outside of the house, this feature is particularly important on table lamps and carriage lamps.

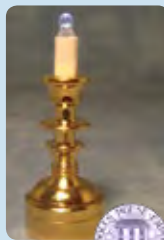

LED lights can be more suitable for children and people who feel they may want to move their lights from room to room. Many of our LED lights have self adhesive pads and magnets which make this idea possible.

These lights are powered by a long lasting battery (at least 72hours). Each lamp has its own inbuilt on/off switch.
